

Streamline the Affordable Care Act requirements in one system—AllPay

With Alliance Payroll's online AllPay system, we leverage its single database design to deliver the most advanced ACA compliance suite for any industry!

Each piece of the employer mandate compliance puzzle is connected. The Measurement Period setup wizard allows for simple creation of multiple measurement groups. As a single database, live payroll data is queried for its measurement calculations. Operations with multiple companies of common ownership will appreciate that shared employees are accurately measured—taking into account ACA Rehire rules.

Reports, Dashboards and Views deliver ACA information into actionable formats that can be accessed by management at all levels. Managers are able to use our predictive hours tool to manage team members to a desired hours worked goal. Automated alerts and notifications mean that management and employees are always up to date on their ACA status.
